ABOUT US

A very warm welcome to you. If you are an existing client, thank you for your continuous support. If you're thinking about joining our unique legal world I hope that this first edition of our new e-mag will convince you to sign up.

Comninos has been in the business of solving legal problems for over 16 years. We've been faced with some real challenges over this time, but the one thing that has stood out for us is the fact that 99% of the problems that clients encountered were caused by themselves.

A client's lack of knowledge in situations prevents them from making the right choices. In turn this leads to bad results.

Our goal is to educate and make clients aware of the possible dangers they face when making really important life changing decisions. Whether it's to get married or buy a new property, at Comninos we practice SMART LAW.

SMART LAW means you have to trust us. It means you have to listen to our advice. It means you have to believe in yourself. It means being patient. It means asking questions. But most of all it means that we achieve the best result for you.

“ FILOTIMO - TO HONOUR YOUR FRIEND ”

SMART LAWYERS, PRACTICING SMART LAW!

The smart way to solve your legal problems .

WE BELIEVE IN GREAT CUSTOMER SERVICE!

I've always been fascinated by luxury hotels with concierge services and 24/7 room service menus. I mean how on earth do they maintain those impeccable standards? Bellboys all dressed up to the "nines", chamber maids whistling whilst they go about cleaning bedrooms.

Walk into any I-STORE in Gauteng and believe me I feel "hugged" before I'm even two feet inside.

As much as you try to teach someone how to serve a customer they either have it or they don't. It's a special something.. words can't describe.

The Greeks have a word for it. It's called Filotimo- TO HONOUR YOUR FRIEND.

At Comninos we breathe the spirit of Filotimo. Every client is a friend. Every client is family. We care ! That's what makes us different. That's what sets us apart from the thousands of other law firms out there. We care and we show that we care.

Give us a call... and we will hug you too. Ok, maybe not that close!

ATTENTION TO DETAIL! HOW IMPORTANT ARE THOSE "T'S"?

The best clients are the most organised one's. The ones that keep files and files of papers and old letters. Never throwing anything away, just in case. law is about details. That's it! So we don't have the luxury of second chances folks.

The success of your case is not only dependent on the quality of your legal counsel, but very much dependent on the accuracy of your instructions.

The key to a successful matter is determined by the outcome of our first consultation with you. The more informed we are the better choices we can make for you.

Being meticulous is so important when it comes to our matters. You can imagine the consequences if we forgot to add a "o" on your settlement agreement!

So for now keep tabs on everything, you never know when we will need it.

COVID-19

Things have changed. But I'm optimistic! Now's the time to build your company's capability to offer remote work. Working from home saves tons of money on rent and petrol.

Why not update your sick leave policy to accommodate the health needs of your employees. Major businesses like Netflix and LinkedIn already offer unlimited time off, including unlimited sick days.

If that feels too extreme, create a plan that extends sick leave based upon the severity, or, offer only unlimited sick days and stick with your current paid time off plan. Because, let's face it, healthy employees lead to a healthy business.

MODERN TIMES CALL FOR MODERN IDEAS

We have always liked to see our firm as a standout when it comes to "out of the box" thinking. Now is no exception. We have realised that time is money for all our clients and our ability to give them great legal advice and save them cash is an asset.

By allowing our clients to choose how they would like to engage with us gives the client a feeling of comfort previously unheard of. No more stressful consultations in stuffy offices. Instead of wondering how on earth you're going to pay for the consultation, your attention is on assisting us problem solve. Smart hey!

“

DURING A CRISIS TALK TO PEOPLE YOU TRUST!

The smart way to solve your legal problems .

ISRAELI GOVERNMENT IS PASSING A LAW TO USE MOBILE DATA FOR COVID-19 CONTACT TRACING

Israel has passed an emergency law to use mobile phone data for tracking people infected with COVID-19, including to identify and quarantine others they have come into contact with and may have infected. The BBC reports that the emergency law was passed during an overnight sitting of the cabinet, bypassing parliamentary approval.

UIF TO THE RESCUE ACCESS TO BENEFITS DUE TO SHORT TIME AND TEMPORARY LAY-OFF

Some businesses are under severe strain as a consequence of the measures implemented due to the Covid-19 having been declared a national disaster. Businesses are compelled to resort to emergency measures.

A fairly recent amendment to the Unemployment Insurance Act of 2001 is likely to bring much needed relief to affected employees.
